

for Inter-departmental Collaboration in the Government Sector

There are multiple government agencies that need to work in tandem in order to deliver efficient and effective government services. The challenge therefore is to facilitate clear communication and collaboration between departments. A simple and effective video conferencing solution empowers government staff in different locations to collaborate via virtual meeting and simultaneously cut-out transit cost.

The Issue

The need to ensure proper communication between staff and with citizenry.

The need for the government organizations to improve efficiency in their processes.

The need to have the software and hardware in place to enable digital communication across offices.
