Experiencing The Power Of e-Learning with **PeopleLink Video Collaboration**

Business Requirement / Challenges

The Institute is running around 20 Schools and Colleges in India and 4 Groups of Institutions in Africa in Zambia and Tanzania through Charitable Foundations (DFT). As the procurement was being done for the African nation colleges, wherein they had low bandwidth connectivity across the Institutes, they wanted a robust solution which could collaborate the different classrooms.

Technologies Evaluated

DMI-St. Eugene was evaluating virtual classroom. This Evaluation was done with several Video Conferencing OEMs like, Avaya (Radvision) and LifeSize.

Solutions Deployed

They are using our solution wherein they have 20 studios from where they have connected 120 Class Room's across various institutions across Africa and their daily Classes are happening through our Video Conference Solution. As they have institutions in other continents also they would be going for another additional 40 licenses shortly within this financial period. From the date they had gone with the initial purchase of our 33 in number PeopleLink Video Conference licenses till date they have expanded our server's up to 143 Ports and later they procured our Video accessories.

Business Results Achieved By Using PeopleLink

- a) DMI-St. Eugene successfully conducts multi-location e-learning classes over PeopleLink Video Conferencing across African Continent.
- b) Ability to invite expert guest speakers to train their students from around the world.

About DMI-St. Eugene
