

for Remote Interview in the Education Sector

Recruitment is an elaborate process involving multiple rounds of interviews. Interviewees may be remotely located, even offshore, which necessitates the need for travel. This is the case with both new staff members and potential students. Therefore, what is needed is a technology solution that can manage this process remotely, efficiently, and cost-effectively.

The Issue

The need to provide for a streamlined recruitment process for teaching staff and potential students.

The need to have feedback on the effectiveness of the interview and overall recruitment process.

The PeopleLink Solution

PeopleLink InstaVC: Connect, Discuss

- Recruitment interviews for new staff members.

PeopleLink Digital Signage: Conduct Surveys

- Conduct surveys on student experiences.
- Feedback on visitor campus experiences.
- Suggestions, complaints.

What are Your Needs:

The ability to facilitate long-distance interviewing?

Cut down or eliminate travel costs?

Attract the best teaching talent?

Grow enrolments of promising students?
