

for Internal Multi-location Meetings in the Education Sector

An educational institution with multiple campuses faces challenges in keeping all of them connected. A simple and effective video conferencing solution empowers professors in different locations to collaborate via virtual meeting and simultaneously cut-out transit cost.

The Challenges

The need to ensure that the content delivered to students across and within campuses is standardized.

The need to provide for a streamlined recruitment and review process for teaching and administrative staff.

The need for the educational institution to plan and execute its future strategy in terms of its educational processes and brand management.

The need to have the software and hardware in place to enable digital communication across campuses.
