

for Virtual Counseling in the Education Sector

The importance of student counseling cannot be underestimated. The choice of the right course can complement the future career options of the student. The impactfulness of this process can be compromised by the fact that some students are remotely located.

The Issue

The need to provide for a streamlined counseling process for students.

The need to have feedback on the effectiveness of the counseling process.

Enable virtual interaction between students and teachers outside of the classroom.

The PeopleLink Solution

PeopleLink InstaVC: Connect, Discuss

- Provide remote, online counseling to students.

PeopleLink Digital Signage: Conduct Surveys

- Conduct surveys on student experiences.
- Suggestions, complaints.

PeopleLink Acumen: Engage Students

- Interaction time with educators - post class appointments.

What are Your Needs:

The need to promote better educational choices for students?

The need to interact with students located in remote campuses?

The need to cut travel costs?
