

for Rural vHealth Kit in the Healthcare Sector

People in rural areas do not have access to quality healthcare. Every check up requires them to travel to the closest city and seek appointments. The cost of travel and accommodation, along with the uncertainty of a timely appointment, is a massive burden to these people.

The Issue

Lack of resources to set up medical camps across several rural towns and villages.

Lack of infrastructure in rural areas.

The PeopleLink Solution

The PeopleLink Solution PeopleLink InstaVC: Collaborate virtually

- HD video conferencing at low bandwidth.
- Clear-cut view of patient.
- Uninterrupted audio clarity.

PeopleLink i10 Telepresence Camera

- High definition visuals helps doctor survey the patient clearly.

PeopleLink Digital Signage

- HD screens set up in rural healthcare centers connecting patients to doctors.

What are Your Needs:

To provide medical consultations for people in rural areas.

To administer quality healthcare.
