

Airphonic Wireless Lapel Mics

The PeopleLink Airphonic Wireless Lapel Microphone is compatible with a variety of devices such as mobile phones, computers, tablets, speakers, cameras, and more making it a versatile choice for any recording situation. With its digital silicon sensor microphone head, -42dB sensitivity, and DSP intelligent noise cancellation, this wireless microphone provides crystal-clear sound, perfect for podcasts, voiceovers, and YouTube videos. This lapel microphone is lightweight and easy to carry with you wherever you go, making it a great option for those who record on-the-go.

The key features

- Ambient noise cancellation up to 6dB (the vocals are more clear and delicate) Automatic pairing, Plug and Play
- One transmitter and one receiver
- Omnidirectional microphone (the 360° all points to the pick up)
- 2.4G wireless connection technology - With reverb, monitoring, accompaniment

General Specifications

Frequency Range : 2.4GHz

Transmitter working current : 15~25mA

Receiver working current : 15~25mA

Transmitter Power off current : 2~3uA

Transmitter Battery capacity : 120 - 300mAH

Single Working time : Around 8H

Charging current : Around 100mA

Charging time : Around 90 min

THD : 65 dBm

S/N (MIC) : -38dB

Microphone type : Silicon Microphone

Sampling Rate : 48KHZ

Input voltage: DC4.8~5.2V

Transmitter charge port : TYPE-C/Charge box charging

Battery full voltage : 4.15~4.25V

Receiver charge port : TYPE-C/Lightning

Receiver charging current : Max 2.0 A

Working temperature : -10~45°C

Transmitter distance :

- Barrier-free distance > 50M
- Human obstacle distance is 20M

Transmission method : Bidirectional transmission

Frequency Range : 20-20KHZ

Transmission delay : 20ms
